Amadou Education also provides **one to one tuition** in
Mathematics.

Please contact us or visit our website for further details.

Contact us now and get your child booked on before the course becomes full.

Tel: 01483 535394

Mob: 07717 473958

Web: www.amadou.co.uk

Email: info@amadou.co.uk

The cost of classes is **less than one-to-one tuition** and provides a different but valuable and stimulating environment where the child is able to engage with their peers and learn in a group context.

We provide a differentiated workbook which includes practice papers and example questions focusing on the **appropriate syllabus**. Problems may be brought to the lesson, and the emphasis will be on examination technique, and strategies in how to gain those extra vital marks.

A full course breakdown and objectives for each lesson can be downloaded from our website.

Further courses will be publicised on www.amadou.co.uk
